Dear Members and Friends:

Last month I mentioned the impending bitterly cold weather and, unfortunately, it stayed with us the entire month! My favorite winter fishing haunts are low and ice-covered, the deck is under almost two feet of snow, and it's been a month since I went fishing. Here's hoping the change of months comes with a change of weather with more moderate temperatures.

An advantage to being trapped indoors is it provides time to prepare and get ready for the upcoming events. Our March General Membership Meeting will feature Mr. Rod Rohrbach discussing his varied fishing experiences. Rod has done it all and is a great source of information so don't miss it: See page five for details! The program begins at 7 PM at the Kettle Creek Environmental Education Center, Bartonsville.

The annual spring banquet and fundraiser is on Friday, March 20, 2015 at Stroudsmoor Country Inn's Ridgecrest facility. We are expecting a great turnout of members and friends so please call or write for tickets if you still need them. Once again we have great artwork, rods, baskets, flies, and a wide variety of "non-fishing" prizes for all. Finally, on Saturday morning, March 28, we will be at KCCD conducting the introductory fly fishing seminar from 9 AM to 12 noon.

Be advised the comment notice for the proposed changes in the Delayed Harvest Areas (DHALO)

regulations has yet to begin but it should arrive soon. Although I and other officers check frequently, you can also get involved by visiting the PA Fish Commission's web page, click on "Regulations and Notices", and review what is there. If you see that it is posted before we do, please let us know. We'll be sure to post when the comment period opens. It will be important to have our voices heard!

In an example of how the national organization of Trout Unlimited can get involved at the local level, the Brodhead Chapter has signed on to a letter from National to the Federal Energy Regulatory Commission (FERC) regarding the proposed Penn-East gas pipeline which is to pass through Carbon and Northampton counties on its way to New Jersey. FERC is currently accepting public comments on the scope of the Environmental Impact Statement (EIS) that will need to be prepared. Our comments are specific to coldwater conservation and the methods to be used to protect the resources during the construction of the pipeline. The proposed path of the pipeline can be found here - <http://penneastpipeline.com/proposed-route/> . The text of the letter and comments can be found at <http://www.brodheadtu.org/2015/03/05/trout-unlimited-comments-on-the-scope-of-environmental-impact-statement-for-the-penneast-pipeline-project/> or from our web page.

Due to the crazy weather and the impact it had on school schedules, I was not able to visit the TIC project at Swiftwater Intermediate School. It is certainly on my agenda again this month. The I'm getting is the fish are doing fine.

Don't forget to review our schedule for the next two months. We will be busy with our outreach and education efforts as we work with kids, adults, and everyone in between.

The weather forecast indicates we will be warming up and that will be more than welcomed. That will allow us to enjoy the cold-water resources of the Poconos.

Tight lines and I look forward to seeing you at our events: Bring a friend or two!

Todd Burns, President

Brodhead Chapter #289 of Trout Unlimited Sponsors Their 17th Annual Spring Banquet

The Brodhead Chapter of Trout Unlimited will be holding its 17th annual Spring Banquet on Friday, March 20, 2015 at the Ridgecrest facility of the Stroudsmoor Country Inn. This well-attended event serves as the main fundraising source for the Chapter in its efforts to conserve and protect the cold-water resources in the greater Pocono area. Additional information can be found on the flyer within the newsletter and also online at brodheadtu.org.

Trout Unlimited and ArtsQuest Partner to present Fly Fishing Film Tour 2015

On March 25, 2015 at 7:30 PM the Fly Fishing Film (F3T) will make a stop in Bethlehem, PA at the ArtsQuest Center located at 101 Founders Way. F3T is a one-of-a-kind experience that takes viewers around the world through short films focused on fly fishing and cold-water conservation. This year's F3T features 11 film shorts. Proceeds from the tour benefit the Monocacy Chapter of Trout Unlimited's habitat improvement work and cold-water conservation efforts throughout the Lehigh Valley and the ArtsQuest Arts Education Programming Fund, which helps to support free music, arts and education programming for the community. Check our web page, brodheadtu.org or go directly to steelstacks.org for additional information.

PA Fish & Boat Commissioners Propose Changes to Delayed Harvest Artificial Lures Only Sections.

Whereas the Brodhead Chapter has invested considerable time, funds, and effort in improving the habitat within the DHALO section of McMichaels Creek near Glen Brook, we want you to know about proposed rule changes that could affect this section. At its January 22, 2015 Commissioner's Meeting, the PAFBC advanced a proposal that would significantly alter the rules for fishing in such waters. Be aware the public comment period should open soon.

The proposed rule changes would:

1. Move the harvest start date to the Saturday before Memorial Day from June 15,
2. Change the minimum size of harvested trout to 7 inches from 9 inches,
3. Allow the use of bait by any angler during the harvesting period,
4. Allow youth anglers under 16 years of age to use bait during harvest AND non-harvest periods
