e-mail: tgburns@rcn.com

610-863-7655/610-704-4549

Dear Members and Friends:

We have been doing our best to keep you up to date on proposals generated and posted by the PA Fish and Boat commission as well as our Pennsylvania and Federal governments. We hope you have found, and will continue to find, these notices informative and useful.

Currently, there are some additional proposed language changes to the PAFBC rules and regulations that will affect streams in our area and thus may interest you. I post this information within the next section for your review and I encourage you to frequently check the Fish and Boat Commission's web site. They have made it much easier to find information via their various links.

Also, we have posted or emailed members about the various state or federal legislative proposals that would affect the cold-water environments that have made the Poconos a recreational destination for generations. It is important for all of us to be aware of what is being discussed and to respond as needed. Although we can send information blasts out via Twitter or Instagram, an email direct to your Inbox works great and you won't miss it! If you need to update your email address with us, please let us know—we will be happy to make the change.

I want to thank those members who represented TU in the ForEvergreen Earth Day events on April 26th. Your efforts and your volunteerism are the foundation of our and other local conservation or-

ganizations. We thank the Brodhead Watershed Association, the Pocono Heritage Land Trust, and Stroud Township for including us in this event. And I also want to thank those Brodhead TU members who conducted the Fly Fishing Clinic at the Pocono Environmental Education Center on that same date. We were spread thin but we made it happen.

The plans for the Pocono Creek restoration this summer are just about finalized and we will be meeting with our contractor and partners near the end of May to plot out exact locations of devices, entry and exit points into and from the stream, temporary rock storage areas and similar logistics. Part of our plans include involving a Northampton County Community College intern in various stream studies to document the exiting conditions prior to our work and those that will be developed as a result of that work. Expect to see macro-invertebrate sampling, some electroshocking work and the creation of 2-D and 3-D stream profiles. We have the opportunity to “do it right” and we are taking advantage of that opportunity.

Continuing our work with the Monroe County Conservation District, and in support of our Mission, the Board voted to fund four youth campers to the MCCD Summer Camp this summer. This is a wonderful opportunity for young people to learn about the outdoors and what our Pocono region has to offer. We are sure the kids will have a great time with their learning and will leave with renewed interest in the nature that envelopes and sustains us all.

Board member Russell Thrall has developed a brief survey for our members and it will take less than five (5) minutes to complete! The survey and directions will be released in the near future and we look forward to your answers, comments, and suggestions. It is through this type of feedback that we can continue to grow as a cold-water conservation organization. I sincerely ask that you complete this—your ideas are important to us.

As summer nears we will be posting more and more information regarding the National TU Annual Meeting that will be held in Scranton, PA this fall. The dates are September 16-20, 2015, and the event will be headquartered in the Scranton Hilton. One of our responsibilities will be to staff a hospitality suite on Thursday night (8 PM) and we will be looking for 8 volunteers to help out and keep up with what National TU believes will be a very large crowd. Whereas we are so close to New York, Philadelphia, Boston, and the Washington, D.C. areas, odds are good an attendance record could be set!

As May unfolds, I sincerely hope you will be able to get out on your favorite stream to enjoy scenery, the wildlife, and the fishing. The sulphurs are only a few weeks away so stock up on those emergers, duns, and rusty spinners!

For Clean Streams and Tight Lines,

Todd G. Burns, President

The Casting for Recovery (CfR) Eastern Pennsylvania Program is excited to announce its **Annual Luncheon and Auction, on Sunday, May 17, 2015, at the Streamside Lodge of Skytop Lodge.** We would be thrilled to have you join us for this special event!

For over 15 years Skytop Lodge, in Skytop, PA has been a generous and loyal supporter of the CfR Eastern PA Program. It is the "home" of the CfR Skytop Retreat. Skytop Lodge is nestled in the beautiful Pocono Mountains and its Streamside Lodge is located in a beautiful and scenic location, overlooking the meandering waters.

This Luncheon and Auction is our **major Spring Fundraiser for the CfR Eastern PA Program.** It is also an opportunity for CfR Skytop Retreat Alumni to reunite, for Volunteers and Supporters to get reacquainted, to say "Thank You" to our generous Volunteers and Donors and to honor the work of the Program Teams and all who help us to live out the CfR Mission: to provide any woman who has or has had breast cancer with the opportunity for the CfR Retreat experience.

On Sunday, **May 17th**, the day will start with a 10:30 am trip to the CfR & Skytop Streamside Bench, for those who desire it, for photos and reflection. We will then return to the Streamside Lodge, to begin the Auction at 11:00am and then Lunch at 12:00 noon. It is a lovely place and a great way to spend the afternoon!

Skytop Lodge has graciously arranged a special rate for those folks who would like to stay at Skytop Lodge on Saturday, **May 16th**, the night before the Luncheon. The rate is \$295, plus tax and gratuity, for the night, per room, double occupancy, including MMP (dinner on **Saturday** night and breakfast on **Sunday** morning). The room reservations will be handled by Myra Snow-Woody, Assistant Events Coordinator. Please contact Myra at (570) 595-8966 for your reservations and let her know that you are attending the CfR Eastern PA Luncheon and Auction.

Again this year we will be embracing technology and sending your invitation, with the remaining details, via email, with the payment method embedded. You will receive the invitation shortly. Please remember to invite and bring a friend to share the day!

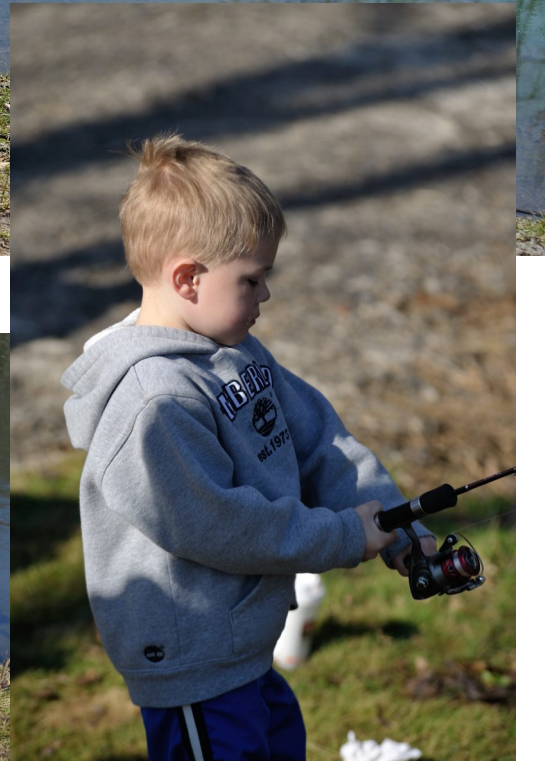

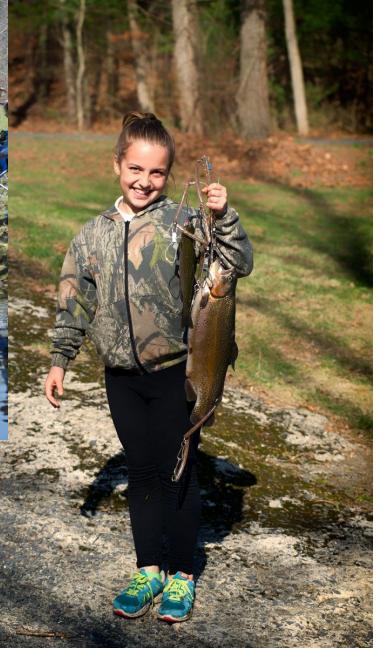

In the meantime, please mark your calendars for our **Annual CfR Eastern PA Luncheon and Auction, Sunday, May 17, 2015, at the Streamside Lodge of Skytop Lodge**, and plan to join us.

If you would like to support the event, to donate an item for the auction or support the CfR Eastern PA Program please feel free to contact me at (732) 780-7185 or via email at casabeno@msn.com. CfR is a 501(c)3 national non-profit organization, donations are tax deductible to the fullest extent of the law. Proceeds from the Luncheon and Auction will help to support the CfR Eastern PA Program.

Brodhead Watershed Association Earth Day Festival and Creek 5K—April 26, 2105

Follow the link provided to view images from the BWA Earth Day Festival and Creek 5K that was held on April 26, 2015 at the ForEvergreen Preserve. If you were there, you're probably in the photos! You'll see the vendors, the runners, the attendees and, yes, the eagles. This well attended event demonstrated the commitment of the community in conserving the natural beauty and resources of the greater Pocono area. Enjoy!

Kids Fishing Clinic and Casting Contest

Brodhead TU will assist the National Park Service in their Kids Fishing Clinic to be held Sunday, May 24, 2015 at Hidden Lake , Middle Smithfield Township, Delaware Water Gap National Recreation Area. The entire program, from set-up through tear down, should run from 8 AM to 1 PM. TU members will run and assist with the following instructional stations: knot-tying, bait and tackle, ethical angler, and fish identification. Following the kids' rotations through the stations, multiple groups will be formed and the kids will learn how to cast. Following 1/2 of learning and practicing, a brief casting contest will be held. If you are interested in helping, please contact Todd Burns at 610-704-4549 or tgburns@rcn.com . We should have 6-8 volunteers.

Trout in the Classroom Update: May 2015

The Brodhead Chapter continues to support a Trout in the Classroom program at Swiftwater Intermediate School in Swiftwater, PA. Approximately 60 brook trout have hatched and reached 3 inches in length. The students learned about the need for cold, clean waters to support wild trout and their growth. They learned about optimal temperatures, flowing water, pollution and other factors that impact upon the growth of brook trout. Fingerlings will be released into the McMichaels Creek some time in early June As you can see, the fish are starting to get their colors!

Changes in Regulation Language and Regulations.

The Fish Commission is proposing some language changes and one, Chapter 63.3, that we think will be beneficial is the replacement of the term “approved trout waters” with “stocked trout waters.” As there was often confusion if a water was approved or not, it is relatively easy to see what waters are stocked. Also, a proposed change in regulations would address Chapter 65.13. The Commission proposes eliminating the Brook Trout Enhancement program in its entirety. Basically, the research has shown the program was ineffective in its goal to enhance wild trout in select streams. In our area, two brookie streams were included on the list: Wolf Swamp Run coming off Camelback Mountain and Wolf Swamp Lake and Kistler Run off Route 423.

The History of Fly Fishing in America As Seen Through the Eye of the Hook

SCOTT CESARI, 2006 PA STATE FLY-TYING CHAMPION!

The History of Fly Fishing in America as Seen Through the Eye of the Hook is the culmination of Scott's Pocono Patterns research project. Through his study of the flies that were created to fish the waters of the Pocono Region in NE Pennsylvania, he uncovered a wealth of fascinating angling history. This presentation details the flies that Scott found and illustrates how the history of our sport has been shaped by these patterns. You will learn about patterns that date back as far as the mid 1800's, about the rise and fall of the famed Henryville House and it's prestigious guests, and you will see how some of these patterns can be traced back to the very first English writings on Fly Fishing from the 1600's. It really is a fascinating look at how our sport has evolved over the years and how a study of the flies helped to uncover this rich history.

This is a unique presentation you won't want to miss!

Brodhead TU

Annual PICNIC & BBQ!

**Saturday,
June 13, 2015**

3 pm until dark

Brodhead Park - Rt. 191 Stroudsburg, PA

Bring a covered dish or bring a dessert to share with the gang! Plenty of "Good Eats" to tempt everyone's palette. As always, it's FREE for all our members and family. We'll provide the meat, buns and beverages. This is always a great event and a wonderful time for sharing good food, good friends and great fish stories!

Afterwards, we'll be fly-fishing in the Brodhead Creek, which is just a short cast from the BBQ grill.

**ALSO: CASTING CONTEST &
FREE FLY ROD DRAWING!!!**

WOW! What a great way to spend a day!

**PLEASE JOIN US FOR THIS WONDERFUL
ANNUAL CHAPTER SOCIAL EVENT!**

Fly-Fishing Workshop

Sunday, June 28th 2015 from 1 to 4pm

Join expert members of the *Brodhead Watershed Association*, the *Pocono Heritage Land Trust* and the *Brodhead Chapter of Trout Unlimited* at the **NEW FOREVERGREEN PRESERVE ON CHERRY LANE, JUST OFF PA STATE ROUTE 191, ANALOMINK**, for a unique and highly informative Elements of Fly-Fishing program that will provide you with an entertaining, informative and very relaxing introduction to the bucolic sport of fly-fishing for trout in our local watershed! Equipment selection, casting techniques, how to read the water, effective fly fishing strategy, understanding trout stream entomology, basic fly tying, will all be covered & made easy as "ABC" for you by our resident fly-fishing experts!

SUGGESTED DONATION:

\$10 for BWA, PHLT or TU Members — \$15 for Non-Members

Children Under 12 FREE
